Argano Cloud Blueprint
Your roadmap to realizing business value.

Migrating from legacy, on-premise software to the cloud creates opportunities for cost savings, productivity gains and even new revenue.

But how do you get there? It's an important question—and knowing the answer is the key to realizing the full value of the cloud.

Detailed Cloud Blueprint

Once you've decided to migrate to cloud, the next step is understanding what the transformation entails and communicating the value it provides.

This is where a Detailed Cloud Blueprint makes the difference. Argano experts will help you define the vision, scope and objectives of your cloud migration.

A **Detailed Cloud Blueprint** provides:

- Executive Strategy Alignment
- Business Process Review
- Customizations Review
- Infrastructure Review
- Value Matrix
- ROI Analysis
- Business Benefits
- Cloud Roadmap
- Implementation Plan

The Argano Process

Our powerful process reveals the savings and benefits you can expect from modern cloud solutions and gives your organization a strategic plan for achieving them.

Argano builds cloud roadmap

Collaborate to create joint implementation plan

Still considering the cloud?

If you're unsure about whether a cloud migration makes sense for your organization, ask us about a Rapid Cloud Blueprint. This lightweight assessment provides a quick overview of the cloud solutions that meet your needs, and outlines the benefits of a migration.

With a **Rapid Cloud Blueprint,** you receive:

Roadmap to the Cloud	+	Opportunity for Improvement Matrix	+	Business Benefits	+	Project Timeline and Scope

The Rapid Blueprint doesn't replace a detailed assessment, but it does offer valuable insights that can give your enterprise cloud initiative additional momentum.

Your partner in cloud

Benefit from our extensive knowledge of Oracle On-Premise ERP combined with deep experience in migrating enterprise customers to Oracle Cloud-based systems. Our implementation and integration experts not only help accelerate your journey to the cloud, they also optimize the results.

Our unique approach and proprietary cloud migration toolset help accelerate your journey to the cloud. What's more, with a solid business case and practical plan for achieving value from a cloud migration, you can garner broad support for your project and proceed with confidence.

About Argano

Argano helps businesses run better by using digital strategies supported by Oracle applications, sector-specific solutions, and third-party integrations. We offer implementation and integration consulting as well as managed services for the full range of Oracle Cloud and on-premises solutions. Our expertise is grounded in industry-specific experience with a commitment to helping clients deploy and manage people, processes, and technology. We build the Digital Foundations that make businesses run better.
