

Argano Cloud 9 for Oracle HCM Now

Leverage our pre-configured implementation path for faster ROI

Have you been holding off on implementing an advanced Human Capital Management (HCM) solution due to concerns about implementation cost, time and resource requirements, or complex reengineering? We can help ensure faster ROI through a low-risk, low-cost implementation approach.

Argano Cloud 9 for Oracle HCM Now offers mid-sized organizations a sure-step path to implementing powerful HCM capabilities, all within a single native cloud.

Get started in as little as 16 weeks and streamline your HR operations with a comprehensive application suite. By partnering with Argano and tapping into Oracle's continuous updates and advanced technologies, your business can stay ahead while benefiting from market-leading innovation and cost-saving automation.

Pre-configured industry solution

- Comprehensive and feature-rich scope
- Pre-designed based on industry best practices
- Powerful AI features such as Digital Assistant and Intelligent Matching for Recruiting
- Reduced project timelines (typically by a third)

Low-risk, low-cost approach

- 50% less cost vs traditional projects
- 100% North America-based project resources
- Hypercare and post-go-live support
- Predictable, fixed cost

Reduced client time commitment

- 50% reduction in client resourcing time and cost
- Argano owns the heavy lifting of the project
- Focus on adopting new business processes
- Client resources can prioritize strategic initiatives

Trusted HCM Expertise from Argano:

- 12+ years working with Oracle Cloud HCM
- 400+ engagements across Oracle Cloud HCM suite
- 100% North America-based HCM solution experts

Included:

- Fixed scope, fixed timeline, fixed cost
- Change Management strategy and deliverables to drive adoption
- Post-go-live support
- Access to Argano Journeys Library and Argano Reporting Library
